The only thing relevant that I am aware of is an Infinity Ward retention program still in the planning phase, and will require more thought and internal discussion, so maybe yes/maybe no for Jul 31. This would be an equity based award for the top 12 team members ex Vince and Jason to help ensure we retain the team if things blow up at the top. As you know, this has been a difficult relationship.

Do you expect that there will be any topics (ie: Neversoft equity) that will need to be presented at the July 31 Comp Committee meeting?
